Personal safety: violence and aggression

Staff working with pupils who demonstrate challenging behaviour are provided with Team Teach training; care and support plans for such pupils identify the risks, triggers and de-escalation actions to take.

Violence and aggression risk may come from intruders to site, angry parents / carers or pupils, as well as people out in the community when conducting off-site visits.

All staff are responsible for ensuring that they report all violence and aggression incidents in line with the '[Accident and incident reporting](#)' section of this policy.

Risk assessment

As required by the Management of Health and Safety at Work Regulations, Marston Moreteyne VC School will document its assessments of health and safety risk and ensure that they are implemented and reviewed. The method of documentation of risk assessment can take many forms and does not necessitate the creation of

additional paperwork. As such, risk assessment will be documented in a format which is appropriate to the activity involved. This may include, for example:

- risk assessments relating to pupils with specific care / other needs being documented as part of care and support plans;
- risk assessments relating to curriculum activities being incorporated as part of lesson plans;
- risk assessments relating to staff ill health being incorporated into return to work documentation; and
- more 'traditional' format risk assessments for general work activities.

In all cases, risk assessments must be reviewed annually or sooner if determined as appropriate or in the event that there is an incident or change in circumstances which might affect the validity of the original assessment.

Staff in charge of activities (including, for example, Year Group Leaders) for school operations and Subject Leaders for curriculum activities) are responsible for ensuring that the risks associated with the activities under their control are adequately assessed and the results communicated and implemented by those for whom it is relevant.

Safeguarding

The specific arrangements for safeguarding and child protection are outlined within the Marston Moreteyne VC School Safeguarding Policy.

Access control systems are in place at visitor entrances and throughout both school sites. Members of the Administration Team are responsible for issuing security fobs to authorised staff at the Forest End site. Entrance to the Church End site is via a key code panel.

Perimeter fencing / borders provide access barriers to the site grounds.

The School Premises Manager & Site Agents monitor perimeter security as part of their daily site inspections and are responsible for unlocking and locking the site at the start / end of each day. Eight Marston Moreteyne VC School staff are building key holders.

All visitors are required to sign in, wear a visitor badge and be accompanied. Visitors will only be permitted unsupervised access whilst pupils are on site where DBS checks have been confirmed and are considered acceptable.

- driving school owned / managed minibuses; and / or
- driving their own, personally owned vehicles, to conduct journeys in relation to the business of Marston Moreteyne VC School.

Work-related driving can be defined as *"any work-related journey other than the normal commute to / from your normal place of work, regardless of vehicle type or ownership, payment terms and time at which the journey takes place"*.

As such, work-related driving in as defined by this policy includes all journeys:

- made using school owned / managed minibuses; and / or
- made for work purposes using personally-owned / leased vehicles (except for the employee's commute between home and their *normal* school work location).

When carrying out work-related driving, the vehicle becomes the workplace. As such Marston Moreteyne VC School has a duty to ensure that employees and others are protected from harm which may arise from the condition of their workplace or the activities that they carry out.

All staff, before driving any vehicle for work purposes, must first evidence:

- their competency to drive school or personally owned vehicles (through their driver's license);

- general waste and recycling is collected on a weekly basis;

Work at height

Falls from height are a common cause of injuries at work, often where the work at height is of short duration and from 'low' heights of less than 2 meters. Common causes of accidents when working at height include:

- overreaching or over balancing;
- climbing with loads;
- using inappropriate equipment to access areas / carry out work at height (e.g. desks, chairs, etc.);
- not ensuring that work at height access equipment is securely fixed in place;
- placing access equipment on unsuitable surfaces;
- falls from roofs with unprotected edges; and
- falls through fragile materials (e.g. skylights).

Marston Moreteyne VC School is committed to carrying out its duties under the Work at Height Regulations in order to ensure, so far as is reasonably practicable, the safety of staff, pupils and visitors carrying out or (being in the vicinity of those carrying out) work at height activities.

The principle applied by Marston Moreteyne VC School is that work at height must always be avoided unless it is not reasonably practicable to do otherwise; if work from height cannot be avoided, the risks associated with it must be assessed before proceeding.

School roofs, even if able to support human weight, are classed as fragile if unguarded skylights are present.

The risks from unauthorised access to places of height have been assessed and reasonably practicable measures taken to mitigate those risks. Logical access points are signed accordingly.

Risks from contractor work at height activities are assessed and managed in line with the '[Contractors](#)' section of this policy.

The Headteacher(s) is responsible for:

- ensuring that appropriate systems are in place to safeguard all those who might be harmed by work at height;
- ensuring that managers and staff are made aware of the arrangements and requirements for working at height;
- ensuring that all those members of staff involved in undertaking higher risk work at height and/or planning, organising or supervising work at height and/or inspecting work at height access equipment have received appropriate formal training; and
- authorising higher risk work at height activities before they may proceed.

Marston Moreteyne VC School does not permit staff to use ladders. Staff may, when necessary, use kick-stools or library steps.

All staff are responsible for:

- undertaking work at height only where they are competent to complete the planned task **and** have received the appropriate level of information, instruction and training to do so;
- planning and carrying out any work at height in line with the requirements of this policy and associated risk assessment(s) and method statement(s);
- ensuring that they carry out pre-use visual safety checks on equipment to be used and take out of use any equipment found to be defective, reporting it to **the Headteacher(s)**; and
- ensuring that kick-stools, where stored in their classroom or area (or otherwise under their control), are appropriately stored so that they cannot be accessed by pupils and unauthorised persons.

Work equipment

Head of Finance & Human Resources is responsible for:

- Liaising with the CBC Assets Team who co-ordinates statutory testing and planned, preventative maintenance requirements for plant and equipment through CBC's Property Buy Back scheme

The CBC Assets Team monitors compliance for plant and equipment associated with property health and safety and requires all Community and Voluntary Controlled schools not using the Property Buy Back Scheme to submit confirmation of compliance on at least an annual basis.

All staff must ensure that they visually check work equipment for defects before use and that they only use work equipment that they are authorised and competent to use, in line with risk assessments and agreed procedures.
